

EDUCTOR

Announcing the Newest High Tech Advance in Energetic Medicine from the People who brought you the new "EDUCTOR"

The Eductor has greatly improved Electro-Stimulation Capacities it has 3 much more technologically advanced Signal Generators to the one old fashioned signal generators of the SCIO and or Indigo. This 3 stimulation system allows a full 3Dimensional Scalar Field for 1000% increased stimulation versatility greatly enhanced Chakra Work, Improved Pain management, Improved Anxiety, Addiction Therapy and Improved Electro Trauma Healing. We can build reduced small frequency interference inside the body. This will allow much greater precision, range and effectiveness of MTENS, MCES, EWH, TVEP, ETM and Scalar wave function. Amplitude of generators can be set separately for all.

The scientific digital quantum xrroid consciousness interface behind the SCIO has been improved in the Eductor. The Eductor has new modern Hi-Tech for today's biofeedback technician. The major improvements to the Eductor include a dedicated ECG, EEG, GSR, EMG with improved disturbance filtering. The sensitivity is 20 times more sensitive than the SCIO. It is 2012 biofeedback chip technology.

There is new active independent shielding and new heat stabilized voltage reference on each channel of the electrodes. The Eductor has new Peak rectifier for the measurement of the peak values of the AC components and Precise 22 Bit Sigma-Delta AD converter for the high resolution DC measurement for greatly improved measurement function. There is greatly improved aberrant artifact reduction.

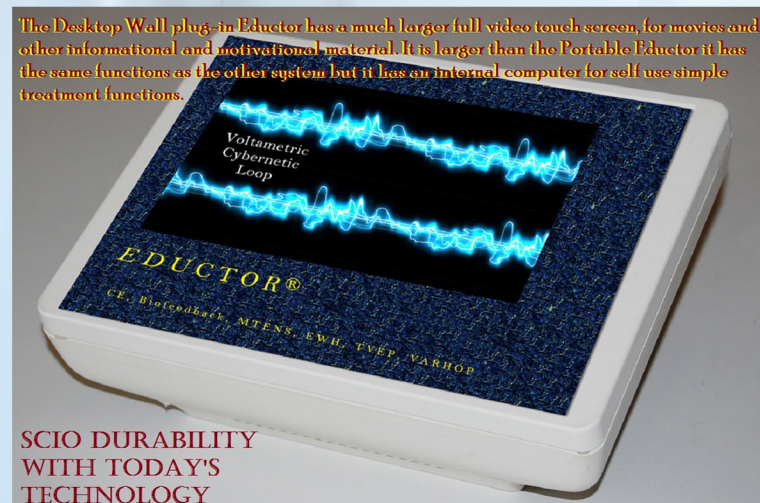

A new DC source can change the source impedance in a wide range for improved GSR measurement. Dedicated independent EEG EMG amplifier with a built in 50-60Hz noise and Butterworth filter and new built in wave source with programmable amplitude and frequency for improved verification of the EEG, EMG channels.

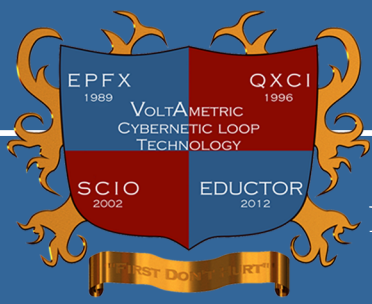

The portable Eductor has a new 330*240 LCD screen on the front can show text, diagrams, or pictures. The Desktop Eductor has a full large video touch screen for movie and biofeedback display, with a Resolution of 640/480 and an external size of 11,8/89 mm. If you wish to trade in to the Desktop Eductor, the trade in prices would be increased by 1,000 EUR. The Desktop Eductor will be available at the end of 2012.

We have added a multitude of programmed waveform. In summary using today's chip technology and the quantum xrroid technology we have a much improved medical device to help with educating your patient's body electric to increase wellness.

The New Electro-Transcendental Meditation (ETM) Function is greatly improved with the EDUCTOR. With this we can stimulate the mind into deep states of relaxation and meditative Bliss. Deep relaxation, more balanced, Releases Emotions, senses are increased, colors more enhanced, brain wave conflict reduced, it is like tuning a badly tuned guitar to a harmonious tranquility, reduces dissonance, perception improved, brain function improved with consciousness open

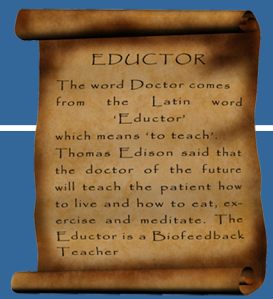

Progress, Evolution, Technology today the EDUCTOR

Announcing the Newest High Tech Advance in Energetic Medicine from the People who brought you the new "EDUCTOR"

The word SCIO means in Latin "to Know" and this is where the word science comes from, but we cannot truly Know. The word Doctor comes from the Latin word 'Eductor' which means 'to teach'. Biofeedback means teaching rather than knowing. Our device teaches, not diagnoses.

The new 'Eductor' is a vast improvement, fully registered device with professional EEG, EMG, ECG chips inside, four wave signal generators for 3D visual graphic representations, Wi-Fi connection, micro-micro operations, LCD screen, Cranial Electrical Stimulation harnesses and much more. It is the next super generation in our technology.

We will upgrade the SCIOs to the Eductor on a special price starting now. Pre orders are taken now and the Eductor delivery date is the October 2012.
